

PARADIGM INDUSTRIAL LLC

SERVICES

Machining, Fabrication & Maintenance Solutions

Precision Machining & Waterjet

We provide quick turn-around of details that require milling, turning, and grinding. Paradigm Industrial has 5-axis milling and Wire/Ram EDM capability in house. Our injection mold equipment is used for sampling new molds and short production runs. In addition to traditional machining, customers rely on us for innovative 3D printing solutions. Our 5-axis Waterjet allows us to cut parts that require less secondary finishing to increasing value for our customers.

Welding & Fabrication

Paradigm Industrial's welders are certified to meet our customers requirements. We join broken pieces, prepare weldments for machining, build stairs/platforms/railings and produce custom racks/bins/tables. In addition to welding aluminum, carbon steel and stainless steel, we work with copper alloys. We create flow racks and custom material handling equipment using extruded aluminum or Creform/Fastube/Flexpipe type materials.

Machine Repair

We repair and re-manufacture machinery components including cylinders, gearboxes, pumps, motors and other critical wear parts. Paradigm Industrial's technicians troubleshoot and repair a wide variety of equipment and control systems. In addition to electro-mechanical needs, we can address machining and welding requirements such as spline, gear, shaft, bearing surface, sleeve, and keyway repair.

Custom Design & Build

Paradigm Industrial's design services can help translate your vision into the part, tool, fixture or machine that you need help creating. We work with your concept to deliver the right mix of functionality, delivery and cost. Common customer projects include custom machines, controls integration, punches and dies, end of arm tooling, and prototype molds.
